

**KID COMPRESSORS:** Heavy duty industrial V.S.A. Ammonia Compressors—2 to 200 HP. Reference: Bulletin 2-100.

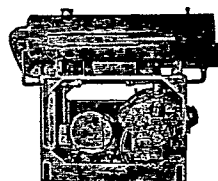

**KMY COMPRESSORS:** Heavy duty high speed industrial Ammonia and Freon Compressor units—20 to 200 HP. Reference: Bulletin 3-100.

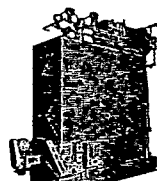

**KBR COMPRESSORS:** Kohlenberger Bucklow Rotawase rotary booster Compressor—15 to 150 HP and Inter-stage Desuperheaters. Reference: Bulletin 5-300.

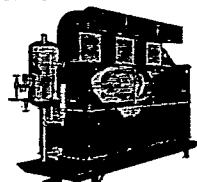

**KID COMPRESSORS:** Heavy duty industrial V.S.A. booster Compressors 20 to 100 HP and Interstage Desuperheaters. Reference: Bulletin 5-100.

**KPC UNITS:** Packaged Chiller Units for industrial brine or water chilling. 10 to 100 HP. Reference: Bulletin 14-100.

**KR Krakice Mahon** for industrial service. 10 to 165 tons ice capacity. Reference: Bulletin 13-100.

**KCW UNIT COOLERS:** Industrial floor type Air Unit Coolers, capacity from 3 to 23 TR @ 10°TD. Reference: Bulletin 9-100.

## Food Processor's Refrigeration Directory

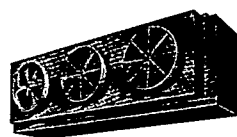

Kohlenberger, quality leader in industrial refrigeration since 1922, offers a highly versatile and economical line of proven equipment for meat, poultry, fish and general food processing applications. Consult your Kohlenberger Product Catalog or contact directly for specific Product Bulletins.

# WATERLOO

# EQUAL?

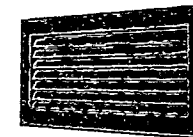

Waterloo, long a leader in the development of new products, produces the most complete line of quality steel and aluminum, supply and return grilles and registers, extruded aluminum directional diffusers and accessories.

Featured here with a standard supply and return grille are the distinctively styled and attractively designed Airline, Rotacore and Integritel models that lend accent to . . . or blend with modern architectural concepts.

Many years of experience are behind Waterloo products that are BETTER THAN EQUAL. For convincing proof call your Waterloo representative or write Waterloo Register Company, P. O. Box 147, Waterloo, Iowa. (Complete catalog available upon request.)
