

1 Considering the size of Ford Motor Company,
2 I don't think anybody in Ford Motor Company knows what
3 Ford Motor Company has. It is too big a company.

4 Q So it is your opinion that Ford's asbestos-
5 containing brakes are still available to the present?

6 A If you go to a dealership, the inventory in
7 the dealership, probably I would expect there to be
8 some in the dealerships' inventories.

9 Q Do you know if Ford tried to do any brake
10 tests similar to the brake work that our client Mr.
11 Grewe performed in terms of the exposures he had from
12 manipulating Ford brake products?

13 A Very frankly, I don't know what Mr. Grewe
14 supposedly did with the brake linings, because I did
15 not have that material to review.

16 Q Are you familiar with the EPA publication of
17 1986 guidance for preventing asbestos disease among
18 auto mechanics?

19 A I have seen that, yes. I have a copy of
20 it.

21 Q In relation to our discussion earlier about
