Subject: TELEPHONE PROJECTS

Location: Hicksville, N.Y.

As a result of telephone conversations, we will be receiving the following:

- 1) (2) five pound cans of honey from Hubbard Apiaries for VCM extraction work.
- 2) (1) Gerbille-ball pet exerciser. This ball is molded from Eastman's Propionate. We want to look at it to see whether or not we can supply PVC compound for this job.
