Mr. R. W. Flint, Plant Manager
Monsanto Industrial Chemicals Company
Sauget, Illinois 62201

Dear Mr. Flint:

In response to a telephone request from Mr. Paul Heisler of Monsanto we are sending "preliminary" materials developed by EPA in regard to atmospheric emissions from the Krummrich plant. This material is further support of my letter to you of May 7, 1976 and would be discussed at the meeting proposed in your letter of May 19, 1976.

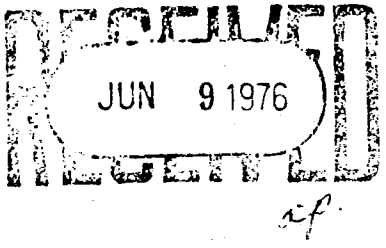

Questions may be referred to Howard Zar (312-353-1472) or R. Edwin Zylstra of this office.

Very truly yours,

Dale S Bryson

Dale S. Bryson, Acting Director
Enforcement Division
