Dear Dr. McCullagh:

I have asked Dr. George Wright, who is a Manville consultant, to respond to the questions you raised in your letter of February 22, 1983.

Dr. Wright has also included copies of some articles which you may find of interest in studying the area of radiological changes attributable to subpleural fat. If we can be of any other help, please let us know.

Very truly yours,

Robert Anderson, M.D.
Corporate Medical Director
Health, Safety & Environment Dept.
