DOCUMENT DESCRIPTION: Memo

FORM L-7

TO H. W. Regan - Hooksett
SUBJECT: Asbestos Dust Survey - Hooksett

FROM J. E. Waters /cs
(LOCATION) Perth Amboy
DATE January 9, 1969

cc: J. E. Hunt - St. Louis

I have just received the report by Mr. R. L. Comboy of Liberty Mutual Insurance Company, presenting the results of their asbestos dust survey at your plant on December 10, 1968, which was the subject of Mr. Hunt's letter of January 3, 1969.

Will you please review the recommendations regarding the improvement of exhaust ventilation on the braiding machines and let us know what you plan to do to improve the situation so that you comply with established standards. It does seem to me that it would be much better to improve the exhaust conditions around the machines rather than requiring people to wear respirators.

Please keep us informed.
