Subject: Re: Third hand smoke

I haven't heard back, if you are not able to assist me with this do know of a person or group that could.
Thank you,
Dave

I'm in need of assistance. I read your article from August 17, 2010 on Third Hand Smoke and Asthma.

I work for the [REDACTED] **Ex. 6** [REDACTED] building that I'm assigned to.

Like all public schools are district has a no smoking policy, but at [REDACTED] **Ex. 6** [REDACTED] the management turns a blind eye and does not enforce the law or policy.

I have had 5 meetings with HR, they do very little to stop the smoking.

I have Angina and asthma, during shift changes my boss hands me the cell phone.

Mike is a smoker and I get the phone it smells just like he just finished a cigarette.

I'm going my 3rd month and my 3rd round of antibiotics for bronchitis, when I'm off for a few days my breathing improves, not great but gets better.

When I come to work and handle and use the phone, the next day and rest of the week and into the weekend my breathing is limited.

You are the first person I have reached out too, I hoping you can give me help with more information and a direction to go in for help.

Thanks for taking the time to read this,

I have a lot of information, but too much to add right now.

Thank you,

Dave Mart.
