

August 25, 1975

MEMORANDUM OF TELEPHONE CONVERSATION

between

John O'Brien
Seyfarth, Shaw, Fairweather &
Geraldson

and

Jeffrey B. Springer
Office of the General Counsel

Subject: Asbestos Particles in Drugs

On August 19, Mr. O'Brien called to determine the status of the agency's response to the objections he filed on behalf of the Johns-Manville Corporation concerning the regulations published in the Federal Register on March 14, 1975. I told him that Mr. Patterson, who is on vacation, is handling the matter for this office, and that I would attempt to respond to his inquiry tomorrow.

Mr. O'Brien stated that they intend to appeal the matter if the Agency's ruling is adverse and indicated that he and Richard Carter of the corporation would be willing to meet with agency officials if necessary.

cc: Mr. Patterson
