Robert A. Kehoe, M.D.
Professor Emeritus of
Occupational Medicine
Kettering Laboratory
Department of Environmental Health
UNIVERSITY OF CINCINNATI
Eden and Bethesda Avenues
Cincinnati, Ohio 45219

Dear Dr. Kehoe:

This is in further reference to our telephone conversation today regarding the research which you have done on the migration of lead into foods. If you have any reprints or general literature available on this subject, I would appreciate receiving copies.

I can assure you that the substance of your letter of February 27, to Mr. Raich will be called to the attention of the wine industry's technologists and will be referred to the proper committee for consideration.

On behalf of the industry may I thank you for calling this matter to our attention.

Very truly yours,

WINE INSTITUTE

Hugh Cook
