Attention: Mr. Jeremiah R. Lynch
Senior Sanitary Engineer
Engineering Section
Research and Technical
Services Branch

Dear Mr. Lynch:

I wish to acknowledge your letter of February 1 giving us in considerable more detail the subject matter we discussed last January 24 in our Emeryville plant with Mr. Fred L. Ottoboni of the State of California Department of Public Health.

It will take some time for our people to "digest" the very complete data you have given us. I expect to write you in the near future as to how we may fit into your plans to study plants in California during the months of May or June this year.

Yours very truly,

H. P. Hoopes, Technical Director
Pabco Industrial Products Division
