DOCUMENT DESCRIPTION: Standard & Poor's Register

Standard & Poor's Register

of Corporations, Directors and Executives

1975

Corporations

Volume 1
of 3 volumes

will only YES-MEN see your ad in The Register ?

BUSINESS

RD.9
D6283P

Yes. Thousands of them! Executives with the power to say "yes" to your message.

These are the decision-makers who dog-ear their Registers with day-after-day use, finding answers to *who's who, who's where,* and *who makes what* in American business.

All you do is put your best corporate foot forward.

The yes-men are bound to take notice.

Find out the astonishing low rates. Call collect:
Richard G. Philpott, 212 924-6400.

will only YES-MEN see your ad in The Register ?

Yes. Thousands of them! Executives with the power to say "yes" to your message.

These are the decision-makers who dog-ear their Registers with day-after-day use, finding answers to *who's who, who's where,* and *who makes what* in American business.

All you do is put your best corporate foot forward.

The yes-men are bound to take notice.

Find out the astonishing low rates. Call collect:

The information in Poor's Register of Corporations, Directors and Executives and its supplements has, with few exceptions, been obtained directly from the individuals and companies themselves. The nature and magnitude of the work, however, make it impossible for the Publisher to guarantee complete accuracy.

FEB 21 1975

Introduction

BACKGROUND

Poor's Register of Corporations, Directors, and Executives was first published in 1928 by the then Poor's Publishing Company. At that time the Register represented the first major publishing effort in providing a national "Directory of Directors" covering the entire United States. Today, with this its 48th publication, Poor's Register is generally acknowledged as being the foremost guide to the business community and the executives who run it. It has since its inception maintained a progressive program for refinements and additions to its data and has in a sense reached out beyond the scope of a national publication with the inclusion of Canadian businesses and major international corporations. This has been done in recognition of the need for businessmen worldwide to reach the men who make "buying" decisions. Within its pages, the Register provides the richest market in the world for whatever product, proposition or service is being offered.

The 1975 Register is the first edition to be published as a multi-volume set. The change from a single volume to a three-volume format was made to enable the publisher to continue to increase coverage while at the same time responding to the expressed needs of subscribers in a way which greatly increases the usefulness of the Register. This edition contains more than 2,100 new Corporate and over 12,000 new Individual listings, a rate of increase which would not be practical under the single volume format.

ARRANGEMENT of DATA

Poor's Register has been designed to provide easy access for whatever reference is being made. It is arranged in three volumes and also includes cumulative supplements. All of the indexes have been consolidated into Volume III for ease of use with either Volume I or Volume II.

Volume 1—Corporate listings. Straight alphabetical sequence by business name of approximately 36,000 corporations including zip codes; telephone numbers; names, titles, and functions of approximately 300,000 officers, directors, and other principals; name of accounting firms; Standard Industrial Classification codes; annual sales and number of employees where available; division names and functions; subsidiary listings separate with reference to parent companies; principal business affiliation and address of executives, if other than the subject company.

Volume 2—Individual listings—Directors and Executives Section. A straight alphabetical list of approximately 75,000 individuals serving as officers, directors, trustees, partners, etc. Provides principal business affiliations with official titles, business addresses, residence addresses and where obtainable year and place of birth, college and year of graduation and fraternal memberships.

Volume 3—Indexes. Divided into six color-coded sections:

Section 1—Standard Industrial Classification Index (Green Pages) explains the construction and use of the SIC code numbers, and lists these numbers by major groups and by alphabetical and numerical division of major groups. This section may be used as a reference to determine quickly the appropriate SIC code number for the line of business in which a company is engaged.

Section 2—Standard Industrial Classification Codes (Pink Pages) lists corporations under the four Digit Standard Industrial Classification Codes which are arranged in numerical order. Approximately 900 different SIC codes provide a defined breakdown by a company's line of business. Many companies have multiple listings in this section depending on the various industrial activities in which the company is engaged.

Section 3—Geographic Index (Buff Pages) lists companies appearing in the Register geographically by states and by major cities. Business names are in alphabetical sequence.

Section 4—New individual additions (Blue Pages). A complete alphabetical list of individuals whose names appear in the Register for the first time. The principal business connection and business address is given for each individual.

Section 5—Obituary section (Green Pages). Records the deaths of which publishers have been notified in the past year. For identification, each obituary shows the individual's principal business affiliation, business address, and, if available, the date of death.

Section 6—New company additions (Blue Pages). A complete alphabetical list of the companies appearing in the Register for the first time. The principal business address is given for each company.

BUSINESS

publication of the preceding year's issue. Standard & Poor's computerized facilities are used in storing, updating, and photo composition of this data. Daily news services, press announcements, trade publications, Standard & Poor's own editorial staff, and of course individual contact by interested members within the business community have contributed to the completeness of this publication. In as large and comprehensive an undertaking as the Register these efforts result in extensive changes in our data from year to year. For example, the number of individual and corporate listings in which major changes occurred since our last edition is in excess of 100,000 and the number of actual revisions necessary to bring this edition completely up to date is over 600,000. In effect, each edition becomes a "fresh" one with new opportunities for buyers and sellers alike to pinpoint their most profitable markets. There is, of course, no charge to be listed in Poor's Register.

OUR APPRECIATION

We again welcome this opportunity to thank all those individuals and corporations who have cooperated in reviewing proofs and responding to our requests; and particularly our subscribers for their loyalty and support as well as their helpfulness in calling to our attention changes in our corporate and executive listings. Without you there would be no Poor's Register. It is only through this joint participatory effort that we are able to present in this our forty-eighth annual edition a work of unusual thoroughness. Finally, we renew our commitment to continue, through the use of data-processing equipment, photocomposition techniques, and up to date professional publishing technology, our efforts to provide maximum value to all users of the Poor's Register.

January 1975

Corporate Symbols

The corporate symbol, commonly called "logo," properly employed can be a most valuable business asset.

An astute corporate management will exploit the potentials for recognition and selling power inherent in their corporate symbol.

Those who have used "logos" as a focal point around which their business activities revolve, have reaped the rewards of almost universal instant identification for their companies and their products.

Used in this manner, a "logo" can be counted among a company's most valuable assets, conferring both distinction and a competitive advantage on its user.

Whether a distinguishing emblem, symbol, letter, word or artistic device, a well-conceived "logo" *given proper exposure*, will serve to communicate its owner's reputation, integrity and quality of product.

It is one of the simplest yet most effective ways of getting a company's "image" fixed in the public's mind.

You will find many of America's best known "logos" in the Index to Corporate Symbols of your Register, which follows:

Directors and Executives

Volume 2
of 3 volumes

BUSINESS

STACK

LB

Yes. Thousands of them! Executives with the power to say "yes" to your message.

These are the decision-makers who dog-ear their Registers with day-after-day use, finding answers to *who's who, who's where,* and *who makes what* in American business.

All you do is put your best corporate foot forward.

The yes-men are bound to take notice.

Find out the astonishing low rates. Call collect:
Richard G. Philpott, 212 924-6400.

The information in Poor's Register of Corporations, Directors and Executives and its supplements has, with few exceptions, been obtained directly from the individuals and companies themselves. The nature and magnitude of the work, however, make it impossible for the Publisher to guarantee complete accuracy.

FEB 21 1975

Introduction

BACKGROUND

Poor's Register of Corporations, Directors, and Executives was first published in 1928 by the then Poor's Publishing Company. At that time the Register represented the first major publishing effort in providing a national "Directory of Directors" covering the entire United States. Today, with this its 48th publication, Poor's Register is generally acknowledged as being the foremost guide to the business community and the executives who run it. It has since its inception maintained a progressive program for refinements and additions to its data and has in a sense reached out beyond the scope of a national publication with the inclusion of Canadian businesses and major international corporations. This has been done in recognition of the need for businessmen worldwide to reach the men who make "buying" decisions. Within its pages, the Register provides the richest market in the world for whatever product, proposition or service is being offered.

The 1975 Register is the first edition to be published as a multi-volume set. The change from a single volume to a three-volume format was made to enable the publisher to continue to increase coverage while at the same time responding to the expressed needs of subscribers in a way which greatly increases the usefulness of the Register. This edition contains more than 2,100 new Corporate and over 12,000 new Individual listings, a rate of increase which would not be practical under the single volume format.

ARRANGEMENT of DATA

Poor's Register has been designed to provide easy access for whatever reference is being made. It is arranged in three volumes and also includes cumulative supplements. All of the indexes have been consolidated into Volume III for ease of use with either Volume I or Volume II.

Volume 1—Corporate listings. Straight alphabetical sequence by business name of approximately 36,000 corporations including zip codes; telephone numbers; names, titles, and functions of approximately 300,000 officers, directors, and other principals; name of accounting firms; Standard Industrial Classification codes; annual sales and number of employees where available; division names and functions; subsidiary listings separate with reference to parent companies; principal business affiliation and address of executives, if other than the subject company.

Volume 2—Individual listings—Directors and Executives Section. A straight alphabetical list of approximately 75,000 individuals serving as officers, directors, trustees, partners, etc. Provides principal business affiliations with official titles, business addresses, residence addresses and where obtainable year and place of birth, college and year of graduation and fraternal memberships.

Volume 3—Indexes. Divided into six color-coded sections:

Section 1—Standard Industrial Classification Index (Green Pages) explains the construction and use of the SIC code numbers, and lists these numbers by major groups and by alphabetical and numerical division of major groups. This section may be used as a reference to determine quickly the appropriate SIC code number for the line of business in which a company is engaged.

Section 2—Standard Industrial Classification Codes (Pink Pages) lists corporations under the four Digit Standard Industrial Classification Codes which are arranged in numerical order. Approximately 900 different SIC codes provide a defined breakdown by a company's line of business. Many companies have multiple listings in this section depending on the various industrial activities in which the company is engaged.

Section 3—Geographic Index (Buff Pages) lists companies appearing in the Register geographically by states and by major cities. Business names are in alphabetical sequence.

Section 4—New individual additions (Blue Pages). A complete alphabetical list of individuals whose names appear in the Register for the first time. The principal business connection and business address is given for each individual.

Section 5—Obituary section (Green Pages). Records the deaths of which publishers have been notified in the past year. For identification, each obituary shows the individual's principal business affiliation, business address, and, if available, the date of death.

Section 6—New company additions (Blue Pages). A complete alphabetical list of the companies appearing in the Register for the first time. The principal business address is given for each company.

(Continued on next page)

BUSIWESS

publication of the preceding year's issue. Standard & Poor's computerized facilities are used in storing, updating, and photo composition of this data. Daily news services, press announcements, trade publications, Standard & Poor's own editorial staff, and of course individual contact by interested members within the business community have contributed to the completeness of this publication. In as large and comprehensive an undertaking as the Register these efforts result in extensive changes in our data from year to year. For example, the number of individual and corporate listings in which major changes occurred since our last edition is in excess of 100,000 and the number of actual revisions necessary to bring this edition completely up to date is over 600,000. In effect, each edition becomes a "fresh" one with new opportunities for buyers and sellers alike to pinpoint their most profitable markets. There is, of course, no charge to be listed in Poor's Register.

OUR APPRECIATION

We again welcome this opportunity to thank all those individuals and corporations who have cooperated in reviewing proofs and responding to our requests; and particularly our subscribers for their loyalty and support as well as their helpfulness in calling to our attention changes in our corporate and executive listings. Without you there would be no Poor's Register. It is only through this joint participatory effort that we are able to present in this our forty-eighth annual edition a work of unusual thoroughness. Finally, we renew our commitment to continue, through the use of data-processing equipment, photocomposition techniques, and up to date professional publishing technology, our efforts to provide maximum value to all users of the Poor's Register.
