I highly recommend that the Administrator participates in this event. I've attended it in the past and it is a great crowd w very relevant issues. To Randall's point, SP has yet to engage w the offshore crowd.

Happy to provide more information if needed

Kelly: I truly am not trying to be a pest, but just circling back with the hope that the NOIA meeting is still on the radar for the Administrator. (Copy of original invitation letter attached.) I believe this would be the first (at least of which I am aware) event featuring an only offshore energy audience for Mr. Pruitt. Thank you for your consideration.

Should you have any questions, please contact Ann (copied above) or me.
