Attention: Mr. G. T. Russell,
Purchasing Assistant

Dear Mr. Russell:

The answers to the questions concerning the Asbestos Sweeping Compound are as follows:

1. No fire or explosion hazard

2. It is non-toxic and only normal precautions against any dusty material need be exercised.

3. It is non-corrosive and no special handling precautions are required.

If we can be of further help please let us know.

Yours very truly,

CHARLES A. WAGNER CO., INC.,

President.
