

Steve Ferrara, Air Products 6/5/84

Bill McGuire, Thompson, McGuire in Newark

PPG ~~and others have~~

GA Galt

Univ

Shell

Dow

DuPont

Fomosa

Ga. Pac.

Allied

Stanther

Conoco

Dia Sham

Tanner

Air Products

recommended by PPG -
in joint defense counsel -
Street-wise, good trial
lenses, not the best
legal scholars -

- a good number will be trying to
get out because of no salary

Sarah Thompson

Ga. Pac.

404-521-4805

Coordinator

ICI + Fomosa all overlap -

- sold to Vista -

Ray Fisher Backed by Stanley & Fisher ✓

~~Ray~~ Research, Cummey, DelDeo - Cummey, DelDeo, etc.

Ethyl, Build Lenses

Vista, Pitney - Pitney, Hardin (Mansfield)

Ups of in-house counsel and a short while ago -

Have if filed answers -

Not done much coordinating -

Period of employment - 1960 through 1984

~~1966-67~~ in fabrication plant

Utility Operator in Resin
plant, including reactor

May 66 - Sept. 67

cleaning
reactor operator

- 67 numerous unloading -

Diagnosed as having it, but not reported to OSHA -
short latency period

Wasn't in January update -

Ethyl 00487

file → Memice vs. Ethyl

Vinyl chloride - Telecom w/ W. Brydon 3/3/84

probably 62 through 67 - an early customer

vinyl chloride monomer -

We would have been their only supplier until they dropped us in 67

Secaucus, NJ -

York W Va -

20,000 gal RR tank cars -

They refused to pay a ~~claim~~ shipment

We sold only pistons for 2 years, then Firestone dropped us -

and we started to selling to the "schlocks" - Pantasote

Harry Cooley was sales manager, retired in 67 & 68 -

Roger Moxer would have recollections

Joe Costello? if alive might have recollections

VCM shipped as liquefied gas - flammable gas -

Customers would unload into tank - then make polymer

find out job classification - if he was kettle
cleaner -

Kettle had to be cleaned after reaction -

Pantasote is OTC or AMEX stock company -

Mach cloth for vinyl for car seat - ~~salvage~~

~~the~~ callendering company -

Scientific Design was company that designed
the plant -

Tech service - possibly only on tank car

~~unloading~~ unloading - Dalton Brown who

retired a year ago, may have visited -

Plant at Secaucus has been torn down?

Angiosarcoma news hit in mid 70's -

Some sales to PPG may have been for Pantasote in
1964 or 1968

The places of heaviest exposure were in the

~~the~~ PVC plants, particularly kettle cleaners -

By the time

ends of fingers of kettle cleaners began to fall up - particular
syndrome - But we had no problems because we made

UCM - when we got into PVC business, we had less
exposure to reduce problems -

Goodrich was the company that discovered the problem -
