

Johns-Manville Promotes Three Men At Local Plant

w 1 col. curry, lawrence, rogers
The Denison Johns - Manville plant has announced recent promotions in their executive staff.

Alan M. Curry is the new quality control supervisor, promoted from the position of senior industrial engineer because of his prior experience in quality control.

A graduate of Texas A&M, Curry began his career at Johns - Manville in 1958. He replaces Wayne Bird, who is the new J-M plant manager in Tucson, Ariz. Curry is a Denison resident.

John A. Lawrence is the new industrial engineering supervisor. He is a graduate of Austin College, and began his Johns - Manville career in quality control in 1966.

He also replaces Wayne Bird, who was serving in a dual capacity at the Denison plant. Lawrence is a Sherman resident.

Philip A. Rogers is the new production supervisor of the Flextran and Glass Reinforced Plastic Products Department. A graduate of the Newark, N. J., College of Engineering, he began his career with the company in 1964 at the J - M Research Center at Finderné, N. J., as a research engineer.

Rogers replaces Eugene Derichsweller, who is the new plant manager in Pueblo, Colo. He is a Denison resident.

Rep Seeks Revision

AUSTIN, Tex. (AP) — Rep. Lane Denton of Waco, said today he would introduce a resolution next month calling for a 35-member constitutional revision commission.

Denton said in a news his resolution would pointments to the governor, 10 to the House, five to Tex.

GM Asks Price Commission For Increase On 1973 Autos

WASHINGTON (AP) — General Motors has asked the Price Commission for authority to increase by three per cent prices of its 1973 cars, trucks and options.

GM said in a statement Friday that the request is based on cost increases incurred since December 1971 in safety and product improvements, labor costs and material-price increases.

Also, GM sought price increases for its nonautomotive and other products averaging

3.46 per cent. In another development Ford Motor Co. announced that the suggested retail prices of its North American-built cars and trucks will be increased an average of \$62.55 per vehicle, or 1.5 per cent, in the United States starting on Monday.

Ford said in a statement the Price Commission proved only a price increase.

Soviets Announce Pack To Bolster Vietnam Economy

MOSCOW (AP) — The Soviet government announced today a new major agreement to strengthen North Vietnam's military and the Viet-

Tier
