Dr. Robert A. Kehoe
University of Cincinnati
Cincinnati, Ohio

Dear Dr. Kehoe:

Thank you very much for your letter in the [REDACTED] case re. Johnson
Bronze Company.

Referring to our telephone conversation following your letter in which
you stated you would consider coming to New Castle to look the plant
over and to furnish such suggestions as could be utilized at this time,
for the prevention of lead poisoning and to help our doctors in a plan
for treatment of lead poisoning cases and a sanitary program, I talked
to the President of the Johnson Bronze Company, Mr. P.J. Flaherty and
he will be glad to have you undertake this work for them. We are
wondering if it would be convenient for you to come over next Thursday,
the 25th, for two or three days. I will be glad to hear from you on
this.

Will you let me know if there is any data that you wish prepared that
will in any way be helpful to you. If so, I will secure it at once.

Thanking you for your early advices, I am

Very truly yours,
ROBERT F. COLEMAN, INC.

H. R. Bryant

H. R. Bryant,
