Dear Dr. Kehoe:

Beginning this morning, April 20, 1959, we will be sending to you for the rest of this week, blood and urine specimens on our people who have some exposure to TML leaded gasoline on their jobs.

We shall briefly indicate their exposure, but our own records will be much more detailed so that in the event that any lead is found, we can make a thorough check back through our records.

The samples which we will be sending are to be identified by the man's name, Socony Mobil Oil Co., Dr. C. L. Samuelson.

Yours very truly,
