1949 National Safety Congress

NATIONAL SAFETY COUNCIL
20 North Wacker Drive • Chicago 6, Illinois

What's New...

In safety, as in all other human activities, the question is repeatedly asked, "What's new?"

Many answers to that question are given every year by those who participate in the various sessions of the National Safety Congress. Many new methods, devices, and ideas which later became generally accepted first were presented at a Congress session.

Because of this fact, safety leaders throughout the nation have always found the Transactions of the Congress a valuable tool in their accident prevention programs. Publication of the Transactions in small volumes—one for each Section or Division—permits wide distribution of pertinent portions of the Congress material to key individuals at small cost.

The 33 volumes of the 1949 Congress Transactions are listed on the last page. Distribution of these volumes to key personnel is suggested as a valuable aid in the safety program.

In preparing these Transactions the proceedings of the Congress have been condensed and edited for reference purposes. Complete original manuscripts, with any charts or illustrations which were used, are available in National Safety Council files. Views expressed at the Congress or in this record are those of the Congress participants, and not necessarily those of the National Safety Council.

National Safety Council

Yant, Chairman,
W. F. Brown, W.
Lowe, R. T. Solen.

Dr. Yant reported to the nominating Committee that the Constitution authorizes the name of candidates for officers, to the Board of Officers except the President. The secretary of the Committee stated, however, that the Constitution requires the names of candidates for officers to be announced to all members five days before the election. The election was held on September 9, 1949.
