Dr. Kenneth W. Smith,
Medical Director,
Johns-Manville Corporation,
Twenty-two east fortyeth Street,
New York, N.Y. 10016,
U.S.A.

Dear Doctor Smith,

Thank you for your letter of May 24th. It was kind of you to discuss our survey of asbestos workers with Doctor deTreville and I am grateful to you both for the invitations to visit your research center and Pittsburgh. I am keen to make these visits as soon as I can but I am about to depart for a week in western Canada and after that I have some heavy examination commitments here at McGill. So far as I can see I should plan to be away for three days and the first such period of time that I shall have free will be from Wednesday, June 23rd to Friday, June 25th. I could be in New York early on Wednesday morning and move on to Pittsburgh on the Thursday afternoon. I think you suggested earlier that it might be possible for me to see your research center and something of the plant at Manville, N.Y. If these dates are not convenient to you and Doctor deTreville I could manage the corresponding days of the following week.

Yours sincerely,

W. R. deBury

P.P. J.C. McDonald, M.D.
Chairman.
