St. Louis, Missouri 63166

Dear Jerry:

Thanks again for the information on PCB incineration. I've enclosed the article I mentioned. It is from the Solid Waste Report. I also heard that a similar article appeared in Air and Water News, but I haven't been able to track it down yet.

I wonder if I could also impose upon you for a little more information on your incinerator? I'm particularly interested in construction, operation and maintenance. Thanks for your help.

Sincerely,

William P. Ward
Assistant Staff Engineer
Plant & Environmental Engineering
