**Subject:** 2 phone interviews

FYI

Just completed two short interviews re. ANWR, one with Brian Shide (Platts podcast) and one with USA Today. Both focused mainly on "what comes next now that ANWR legislation has been signed." Discussion included potential for 3D seismic survey, how 3D compares to 2D, what do we know about the KIC well, and why would an oil company choose to explore the ANWR coastal plain rather than some other part of the nation or world.

Busy guy!

Dave, you are doing an exceptional job on so many levels and in so many capacities. Your efforts are GREATLY appreciated, and everywhere I go people are singing your praises.

Thank you for all that you do for our Center and for the USGS.

Tina
