KAYLO ASBESTOS REPLACEMENTD. Glosser - New York
J.P. Kern - New York
R.F. Shannon - Granville ✓

Enclosed you will find a copy of the letter from the Navy indicating their program on determining the "Hazards of Asbestos". This is the enclosure that I referred to in my letter of April 17, 1969. John Kern and D. Glosser have copies of this enclosure. Your copy is enclosed and one copy has been mailed to R. Shannon.

Sorry about the reproduction on the enclosure. It was made from a very poor copy of the letter.

Again, it does emphasize the need for bringing the subject project to a quick and successful conclusion. At the same time, consideration should be towards complete activation of our Multi-Temp Pipe and Board program as a back up in the event we are unsuccessful with the replacement of Asbestos fiber in Kaylo.

Regards,

A.S. Kevlin
