From the attached letter to Mr. Don Fowler, you will gather that the earliest we can make a definite meeting will be Friday, July 17. The reason for this is due to Don Fowler leaving on vacation this Saturday. In talking to him today, he admitted that, following his conversation with Dr. Kelly, he still felt Pydraul A-200 might create a hazard; and he wrote a report turning down the proposed trial. While he accepted the report on the results at the GM fire in Bay City, he stated that at Kokomo they have several of these type fires every day, which would mean they would have perpetual sickness of their men due to the fumes.

In view of the above, Dale, I don't think we can do anything else since I believe Fowler is the man to really convince; and we have to wait until he returns from his vacation to see him. I am hoping the date of July 17 will be satisfactory to you and Elmer Wheeler and would appreciate your confirming this fact.
