

1 had a four-day shutdown cleaning up the place and
2 oiling the equipment and getting everything in shape.
3 So I worked three days, had four days off, shut down
4 on the holiday, came back the following Monday.

5 So I worked about a week or so, I was
6 packing bottles as a trainee, and they said -- when
7 the guy came by the line said, when you are through,
8 go up and see Mr. Levis who was one of the top people
9 at Owens-Illinois.

10 I went up to see him and he said nice to
11 have you here, we are transferring you to Evansville,
12 Indiana, we are starting a research organization, we
13 are going to develop things out of glass other than
14 bottles, you are the first guy on the job, and if you
15 go to the third desk, the guy will give you a ticket
16 and \$100 travel expense and you are on your way, nice
17 to have you, good day.

18 Q What was the city where you were located
19 when you became employed by Owens-Corning as opposed
20 to Owens-Illinois?

21 What city was that?
