# INTER-OFFICE MEMORANDUM

TO Mike Slavich
AT Kaiser Gypsum, Seattle

DATE June 28, 1972
FROM A. J. Trommershausen

COPIES TO J. H. Walton

AT 2675 OB

SUBJECT Respirators for Asbestos

Welsh now has a new disposable respirator suitable (and U.S.B.M. approved) for asbestos dust.

These respirators are a little more expensive than the "Dust Demons" you now have, but should be a lot more acceptable to the workmen. They are probably available from your safety supply representative in Seattle, or from the main plant:

Welsh Manufacturing Co.
9 Magnolia Street
Providence, RI 02909

Ask for Welsh Model 7165.

Best regards.
