TRANE REFRIGERATION

1. CENTRAVACS

A self-contained hermetic centrifugal refrigeration unit in 23 sizes. Capacities 45 to over 1500 tons.

2. RECIPROCATING COMPRESSORS

Two cylinder sizes in 4, 6, and 8 cylinder units. Single or duplex direct drive arrangements with capacities from 10 to 150 tons.

3. COLD GENERATORS

Complete refrigeration machine meets all normal requirements of chilled water systems. Models from 10 to 150 tons.

4. CONDENSING UNITS

Trane Reciprocating Compressor complete with water cooled condensers. Capacities 10 to 150 tons.

5. EVAPORATIVE CONDENSERS

Condenses "Freon-12" and "Freon-22" refrigerants. Uses minimum amount of water. Sizes 3 to 100 tons.

TRANE AIR CONDITIONING

6-7-8. SELF-CONTAINED AIR CONDITIONERS

Packaged air conditioning units for offices, shops or home air conditioning. Available in 6 sizes—9 models ranging from 3 to 20 ton. The 3, 5, 7½, 10 and 15 ton sizes have de luxe cabinet design to be installed in the conditioned space and blend with any surrounding. The commercial units available in 10, 15 and 20 ton sizes are usually installed in a remote location, outside the conditioned area. De luxe units available with water cooled condenser. Commercial units may be had with either water cooled condenser or built in evaporative condenser.

9-10-11. ROOM AIR CONDITIONERS

UniTrane air conditioners heat, ventilate, filter and circulate air in the winter. In summer, they cool, ventilate, filter, control moisture content and circulate air. Available in both fan-coil and induction types. Capacities for 100 to 600 cfm delivery.

12-13-14. CLIMATE CHANGERS

Any or all phases of air conditioning available in one unit. Two models, horizontal and vertical, each in 12 different sizes. Capacities range from 600 cfm to 39,000 cfm for any application, comfort or process.

Multi-Zone Climate Changers provide a number of zones with different air conditions at the same time.

EDUCATIONAL MATERIAL

"Trane Air Conditioning Manual" (\$6.50), an unbiased 380-page textbook for the engineering profession. New revised edition now available. Many tables and charts included for making computations. In general, text covers heat gains, psychrometry, calculations for the conditioned air supply, refrigeration for air conditioning, water for air conditioning, and ducts and fans.

"Trane Refrigeration Manual," a reference for servicing and installing all types of refrigeration systems. Also available from The Trane Company, La Crosse, Wis. Price \$2.00.
