

ETHYL CORPORATION

cc: Staff

To: Mr. E. L. Shea

Address: New York

From: F. P. Warne

Address: New York

Subject: Houston Air Pollution Suit

Date: May 14, 1956

I think you will be interested in the following excerpt from the testimony of W. A. Quebedeaux, County Health Officer in the Houston air pollution suit, with respect to the operations of Ethyl Corporation:

"Q Have you made any recommendations which have not been carried out or have you made any recent recommendations as to further devices or changes in procedure as pertaining to air pollution and the emission of effluent from that plant?

A No, sir, I haven't. Ethyl Corporation has made a name for themselves in taking care of their effluent and their hazards before they arise, and do something about them.

Q In other words, in your opinion, Dr. Quebedeaux, they are doing the best they can and the best that is required at this time?

A They are doing the best that is technologically known."
