Discussion with J. Diebold:-

Not uncommon for change of name between Carson and Riverside. Receiving person is to take number from van and match to B/L. Night supervisor does not always get van no. at night - has been advised to do so.

There are times when carrier has changed (Lums to Zentech) before material delivered. B/L is base for match on these type deliveries

We will monitor a continuing base.

Seq.	Subject/I Said	Response/They Said	When
1.	only 3 out of the 11 invoices are supported (clearly) by a receiving report associated.		
2.	5 out of 11 are clearly wrong (look at dates and vehicle numbers)		
3.	with so many mismatches how can we be sure we have control - paying only for what we received?		
4.	how many people (plant + VF) signed off on this package before it got to me?		
	what do those signatures imply?		
	am I the one supposed to be doing the matching and QC work?		
5.	! Lets get it right at the AP vouchering point (plant) and lets make the review signatures mean something!		
	(help) Thanks
