COPY OF OFFICE ACTION

Mr. Kaeghelus

Room 2608

-Applicant: National Lead Co.
Ser. No. 387,802
Filed Dec. 28, 1936
For TRADE MARK

Responsive to communication filed June 22, 1937.

Applicant is advised that solder is classifiable in Class 14, Metals and metal castings and forgings, and should therefore be cancelled from the description. The term "liquid lead" is ambiguous, but if of a character as classifiable in Class 16, such term should be amplified to indicate use as a pigment or other purpose consistent with paint products.

An appropriate amendment should result in publication.
