Dear Bill:

Enclosed herewith is a letter setting up the job procedures for the use of fireproofing materials containing asbestos, in New York.

I understood from your, at one time competitor, that there is approximately 1% of asbestos in cementitious fireproofing materials. I imagine that the City of Chicago will take similar action if they have not already done so, and I will be very curious as to what effect this will have on our proposed use of your materials on several jobs. You might be prepared to discuss this with me when we meet next week.

Very truly yours,

J. Munroe McNulty
