Re: No Further Action Concerning the Potential RCRA Violations at the Cemex Brownsville Ready-Mix Plant facility located at 3600 Chemical Rd Brownsville, TX 78521.

Dear Mr. Escobar and Mr. Avalos:

I am writing to inform you that the Compliance Assurance and Enforcement Division of Region 6, United States Environmental Protection Agency ("EPA") inspection of the Port of Brownsville on September 25, 2023, included a visit to your facility at 3600 Chemical Rd evaluating the potential for Resource Conservation and Recovery Act ("RCRA") violations. Based on the September 2023 inspections EPA has determined no further action is required.

As part of the inspection process your facility was issued and EPA identification number, referred to as an EPA ID#. That number is TXR000074674. This number was assigned as a way to document the inspection and no future action determination.

The inspection report can be viewed at <https://www.epa.gov/tx/enforcement-compliance-assurance-documents-texas> within 70 days of the inspection. If you have any questions regarding this letter or the file review, please contact Claire Welton of my enforcement staff at either the above EPA address or by telephone at (214) 665-2250.

Sincerely yours,

Yurk, Jeff
