1. COVERAGE QUESTIONS

No coverage questions.

2. CREDIBILITY OF THE CLAIMANT AND LAY WITNESSES

According to Don Arvia, the claimant married late in life. He was active in sports and bowling. He did not smoke. He was not handy and did not do remodeling work.

3. DISABILITY AND LIABILITY FOR WORKERS COMPENSATION

The entire building is very clean. I observed some type of spray insulation on the ceiling. According to Don Arvia, it was styrofoam. A few pipes have insulation on them. Don does not believe it is asbestos. Unable to determine compensability at this point. Additional medical and expert consultation is needed.
