FIRECODE* PLASTER

WITH VERMICULITE AGGREGATE FOR ▲ FASTER FIREPROOFING

- ▲ MORE PRODUCTION
- ▲ LESS ABRASION
- ▲ SUPERIOR PUMPING
- ▲ BEST PERFORMANCE IN HIGH-PRESSURE MACHINES
- ▲ GREATER APPLICATION THICKNESS

Lower applied cost, less machine wear are dollars-and-cents benefits of new FIRECODE "V" plaster (with vermiculite aggregate). It's tailor-made for any job condition. With FIRECODE "V" you'll pump more plaster per day through high-pressure machines. Direct-to-steel fireproofing is faster, more efficient . . . and UL-approved. See your dealer or U.S.G. salesman.
