Date October 15, 1970

NOTE: THIS DOCUMENT DID
NOT COME FROM PPG FILES

Dear Lee:

At the recent NIMA Board Meeting at Dallas Bob Naylor of Johns-Manville indicated that J-M has been doing some work in the coating of asbestos fibers to render them inert and harmless. He suggested that this information would be available to you if you're interested.

I would appreciate it if you would contact the appropriate J-M medical man and make further inquiries on our behalf. If you should run into any obstruction I can always go back through Naylor.

Even though we are trying hard to completely eliminate the use of asbestos it seems to me it would be wise to keep up to date on what the competition is doing.

Very truly,

John H. Price, Jr.

JHP:jy
