Hi Patrick,

I don't know if you have had a chance to read the ACC comments that I sent last Friday (attached again for your information), but we strongly support EPA's proposed stay of the effective date for the RMP rule until February 2019. We note that the existing stay of the RMP rule runs out on June 19<sup>th</sup> so it is critical that the Agency take final action on its proposal and publish that final action in the Federal Register before June 19. Would it be helpful if ACC were to send a letter to Barry Breen, and/or to Administrator Pruitt highlighting the need for quick Agency action on this issue?

Regards,  
Leslie
