ACOUSTICAL PLASTER

of 11-5-57

J. R. Watt - cw

Your letter is not quite clear. Do you have enough standard bentonite clay on hand to make 1.72 tons of the new formula acoustical plaster in addition to the 1,300 lbs. of Fesco Gell bentonite. We will eventually use the Fesco Gell but prefer to use the standard for the shipment to St. Louis if you have enough on hand.

FOR Paoli Laboratory DATE November 5, 1957 FROM Fort Dodge OFFICE
ATTENTION OF Mr. J. R. Watt SUBJECT ACOUSTICAL PLASTER
ANSWERING YOURS 11-1-57 DICTATED BY Myron Read - de

We can make 1.72 tons of the new formula acoustical plaster with the raw materials we have on hand.

We also have on hand 1,300 lbs. of Bentonite (Fesco Gell). Do you wish us to use this material or would you prefer that we order an additional supply of standard Bentonite? We have sufficient asbestos on hand to make 6½ tons of acoustical plaster.

We will contact you or Mr. Shuttleworth after we receive the order to be shipped to St. Louis.
