Below is a recommended industrial hygiene reference library list which I
promised to send at our last meeting:

The Basic Library

- F. A. Patty (Editor). Industrial Hygiene and Toxicology, 2 vols.
2 vols. Interscience, New York, 1948. Vol. I, \$10.00; Vol. II,
\$15.00. General information on all phases of industrial hygiene.
- Industrial Ventilation. American Conference of Governmental Industrial
Hygienists, 1952. \$3.00. Copies available at \$3.00 apiece from
Committee on Industrial Ventilation, P.O. Box 453, Lansing 2, Mich.
A practical up-to-date manual of recommended practices in ventilation
engineering.
- M. B. Jacobs. The Analytical Chemistry of Industrial Poisons, Hazards
and Solvents, 2nd ed. Interscience, New York, 1949. \$12.00.
Analytical and sampling methods.
- Industrial Hygiene Digest. Industrial Hygiene Foundation, Pittsburgh, Pa.
(You now receive this).
Monthly publication containing industrial health news and literature
abstracts.
- American Industrial Hygiene Association Quarterly. \$2.50 per year.
605 N. Michigan Avenue, Chicago 11, Illinois.
- A. D. Brandt. Industrial Health Engineering. Wiley, New York, 1947.
- Handbook on Air Cleaning. Superintendent of Documents, U.S. Government
Printing Office, Washington 25, D.C. Price 45 cents.

There are many references on the subjects of air pollution and noise control
that you may also want to add to your library. We will furnish these references
at a later date.
