SUBJ: RECOGNITION FOR DOT HELP

Interoffice
Communication

VISTA

This note is to recognize your efforts the last year and thank you for your help on DOT regulatory matters. Specifically your participation on the Performance Packaging Team and continued participation on the HM-181 Team have been invaluable.

On an even more "ad-hoc" basis I have needed your help on multiple occasions with other people's DOT regulatory questions. Your help in matters, often not related to R&D matters, is greatly appreciated.

T. G. Grumbles
