FILE NAME: Owens-Corning (OC)

DATE: 1955 May 18

DOC#: OC014

DOCUMENT DESCRIPTION: Memo RE Term in Asbestosis in Communications

May 18, 1955

Mr. Hugh T. Williams - Toledo

When you answer Bob McArthur's letter of April 25, please minimize the health angle as Ira Brought is looking into it further for me.

100 to 1 chances are it is "asbestosis" and can not be hung on Fiberglas or mineral wools.

If other "health" problems arise, please keep me posted.
