Subject OVERRUN OF MR-5117 Date 4/27/79

During 1979 approximately \$10,000 charged against MR-5117 included charges for preliminary work for a 2-year dust inhalation study - MR-2929. Bob Gibson and I agree that \$5,000 should be transferred to MR-2929. This leaves a balance of approximately \$15,000 charged to MR-5117. I will write a part II to cover the overrun and continue the MR project.
