Thanks very much, Nick. Kai can help ensure our members are updated if you'd like to change the location.

Have a good weekend.

Best,

Paul

Hi Paul,

Just to clarify and so there is no confusion next week, we are actually in EPA **West**, Room 3146. However, given the large number of attendees we are looking for a larger room – so location may change. For the time being, I have updated the invite with the current location information. In addition, thank you for the materials...we will share those with our attendees.

Thanks,
Nick

Dear John et al:

Our members are very much looking forward to meeting with you and the EPA/OLEM team on Wednesday, April 9 at 11:45am in EPA South, Room 3146. We have a strong showing of about two dozen attendees who have expertise in how pulp, paper and wood products mills are affected by regulation. Attached are copies of our slides we plan to use, as well as an analysis of how our rules of greatest concern violate the principles that President Trump established for rescinding unlawful regulations under Executive Order 14219 and other EOs.

As you will see, our slides focus on: (1) the CERCLA Listing of PFOA/PFOA, and (2) an ongoing analysis of the *Loper Bright* regulatory framework (including a technical case study of the CERCLA Listing, PFAS MCL, and PM NAAQS). We also have included in an Appendix to the slides some supplemental background material related to the CERCLA listing and the beneficial land application of paper mill residuals.

Zad: If there will be any other EPA attendees at the meeting, I would appreciate it if you could forward these materials to them.

If you have any questions in the meanwhile, please let us know.

Thank you for the opportunity to meet with you.

Best regards,

Paul
