Call to George Jones & Owen Dolan

Biphenyl Highboiler Analysis

1. Column life on long SE30 column?
2. Normalizing with ACF for terphenyls?
   Yes ACF = 1.00
3. Choice of acetone as solvent?
   Dissolves faster + resolves better
4. Ever used internal standard?
   OS-138 gave same answers

Reproducibility good
5-9% on highboilers

Eutectic with higher ϕϕ
better to keep terphenyls i

Low peaks read according to high 33% conv.

Biphenyl in Bz Feed Analysis

1. Method of analysis? Normalized
2. Reproducibility Poor? Why do you think so? 90 samples/da. at that time with everyone on it.
   Internal standard?
3. Sampling problems?
